**AMENDMENT AND RESPONSE UNDER 37 C.F.R. §1.111**

Commissioner of Patents  
Washington, DC 20231

This amendment and response is in reply to the office action mailed on August 1, 2002. Please amend and add new claims to the above identified application as follows:

**IN THE CLAIMS**

Please amend claim 51 as follows:

51. (Amended) A method of presoaking cloth for cleaning a cylinder in a printing press, the method comprising:

contacting a cleaning fabric supply roll with a low volatility, compound solvent which does not evaporate readily at ambient temperature and pressure and soaking and saturating said cleaning fabric supply roll with said solvent, such that the contacting of the cleaning fabric supply roll with the solvent is does not require the use of pumps, spray bars, manifold lines and valves; and

engaging said saturated cleaning fabric supply roll with a printing press having a cylinder to be cleaned without disposing of a heat-sealed plastic sleeve about said fabric roll and without substantially disturbing the distribution of said solvent in said fabric roll and detrimentally affecting the cleaning ability of the fabric.
